

INTENDED AUDIENCE ★ ★ ★

- ★ OTOLARYNGOLOGISTS ★ NEUROLOGISTS ★ AUDIOLOGISTS
- ★ PHYSICAL THERAPISTS ★ VNG/ENG TECHNICIANS

This is an intermediate to advanced course for those interested in vestibular testing. Examples of test abnormalities will be discussed and cases used to illustrate how to apply the test results to achieve successful treatment strategies. The third day will focus on testing techniques with hands-on instruction.

COURSE FOCUS ★ ★ ★

The first two days of this course are designed to review the practical performance and principles of balance assessment and management with emphasis on interpretation. This is an intermediate to advanced course, directed at otolaryngologists, neurologists, audiologists, physical therapists and others interested in vestibular testing. Examples of test abnormalities will be discussed and cases used to illustrate how to apply the test results to achieve successful treatment strategies. The third day will focus on testing techniques with hands-on instruction.

CONTINUING EDUCATION ★ ★ ★

AAA Credits - Micromedical Technologies, Inc. is applying for 1.4 CEU Credits through the American Academy of Audiology to offer AAA CEU's for the Thursday/Friday Course. We will apply for 0.8 CEU's for the Saturday Course. AAA approval of this continuing education activity does not imply endorsement of course content, specific products, or clinical procedures.

SPEAKER BIOS ★ ★ ★

TIMOTHY HAIN, M.D.

*Professor of Neurology — Northwestern University Medical School
— Private Practice Chicago Dizziness and Hearing, Chicago IL*

His clinical practice includes evaluating and treating dizzy individuals while he is particularly interested in BPPV and vestibular ototoxicity.

ALAN DESMOND, AU.D.

Director Blue Ridge Hearing and Balance Clinic — Princeton, WV

His text book "Vestibular Function: Evaluation and Treatment" released in 2004 has been a bestseller ever since.

MARK HAEHN

Micromedical Technologies, Inc.

Mark has 15 years of experience in vestibular testing which includes the testing of over 5,000 dizzy patients.

ASSESSMENT, INTERPRETATION & MANAGEMENT OF BALANCE DISORDERS
